LAMB ON THE STAND

MAKES STARTLING DISCLOSURES
IN THE PETER POWER
MERGER SUIT.

TELLS HIS STORY READILY

Names the Men Who, He Claims, Were Back of Power and Who Wished to Keep Their Identity a Secret, W. Bourke Cockran Being One of Them. Power Also Gives Testimony Corroborating That of His Lawyer.

New York, Aug. 22.—Lawyer George Alfred Lamb, attorney for Peter Power, went on the stand during the day and told all he knew about the Northern Pacific merger suit. He named the men who, with Power as plaintiff and Captain Henry Stern as go-between, he said, had hoped to conceal their connection with the litigation and keep their identity hidden. These he named were: W. Bourke Cockran, Camille Weidenfeld, H. Content & Co. and Edwin R. Thomas of the firm of Thomas & Post, Wall street bankers and brokers.

The story of Power's wandering came out and a plan to send him to Europe revealed, as was his quasi-connection with the suit at issue. Lamb said that he was practically forced by the people back of him to send Power away and that they paid the expenses of his trip to West Hurley and to Montreal.

Weidenfeld, Cockran and other sponsors of the Power suit, Mr. Lamb, said, inferred that Power would be broken down as a witness and would give away the people behind it.

Cockran was telephoned to for advice in his presence. Lamb declared he was one of the persons for whom Lamb was given to believe he was acting in pushing the suit and he was one of those who advised Power to stay out of the court's jurisdiction and was ready to supply him with funds to enable him to do so. Mr. Lamb told the story readily, released, as he said he considered himself, by the action of his clients in repudiating him as their counsel.

Peter Power himself was on the stand at the afternoon session. He said to the best of his belief he had received the 100 shares of stock in payment for the use of his name. That was his sole interest in the suit. He had been instructed that the subpoena service was bad and had left New York city with that understanding. In a measure, his testimony was corroborative of that given by Lawyer Lamb regarding the connection of Messrs. Cockran and Weidenfeld with the suit.

W. Bourke Cockran in an interview characterized all the testimony relating to him as false in every detail.

SITUATION UNCHANGED.

No New Moves in Colorado Fuel and Iron Company Fight.

Denver, Aug. 22.—The situation in the fight for control of the Colorado Fuel and Iron company is practically unchanged. Joel F. Valle, one of the attorneys for the Gates people, said that application would be made for a dissolution of the injunction issued by Judge Mullins of the district court restraining the holding of the stockholders' meeting, but he did not indicate just when such action would be taken. The practice of Colorado requires that five days notice accompany such application, which would bring the matter up for consideration some time next week should the application be filed at once. Judge Mullins is arranging for a short vacation in the mountains, and evidently does not anticipate that he will be interrupted by any legal steps in the Colorado Fuel and Iron company case. The entire Gates party has left Denver for the East and Mr. Valle was not aware of any intention on the part of Mr. Gates to return to Denver in the near future. At the headquarters of the Colorado Fuel and Iron company the usual conditions prevailed.

OLD SETTLER KILLED.

Freeman Keen of Duluth Struck by a Street Car.

Duluth, Aug. 22.—Freeman Keen, aged seventy-one years and the oldest settler but one at the Head of the Lake, having come here in 1852, met almost instant death at West Duluth by being run down by a street car. Mr. Keen had stepped down from the car on which he had been a passenger and started across the adjoining track when a car coming in the opposite direction struck him in the head, crushing his skull. He was conveyed to a hospital, where he survived but a few moments.

Mr. Keen is survived by a family of grown sons, his wife having died here two years ago.

Literally Ground to Pieces.

Fargo, N. D., Aug. 22.—Peter Oppergood, a wiper in the Northern Pacific shops here, was ground to pieces by being struck by a passenger train which was arriving from the East. He was endeavoring to catch a street engine to ride to the shops, and was hit by the passenger engine coming in on another track. He was unmarried and his father resides at Dazey, in this state.

ATTACK NOT YET MADE.

Interesting Situation in the Atlantic Coast Naval Maneuvers.

Rockport, Mass., Aug. 22.—At midnight thirty-six hours had passed of the possible 120 for the naval conflict between the attacking squadron, in charge of Commander Pillsbury and the defending squadron commanded by Rear Admiral Higginson. The coming of another day was recorded but the anticipated meeting between the hostile fleets had not come to pass. After a day which had been on the whole devoid of any sensations, the night, thick and cloudy as it was, with the moon quite obscured, developed so many confusing situations and so many extraordinary reports that the Higginson squadron had just cause for grave uneasiness. Somehow the feeling grew that it would not be such a difficult attainment after all for three auxiliary cruisers of the White squadron to slip in and anchor at some harbor, protected as they would be by the inviting darkness which prevailed.

Perhaps the greatest danger which came to Admiral Higginson was that of yielding to the temptation to withdraw the Kearsarge and leave only the Alabama and the Massachusetts to go in search of the enemy reported on apparently reliable authority to have been sighted at either this point or that point along the coast.

In the early part of the night the station at the Isle of Shoals, notified the nearest mainland point by the use of torches and the secret code of the navy that a large, strange, two-masted craft had been sighted outside the shoals. Admiral Higginson's wonderful system of signals worked to perfection. Almost in a moment it seemed, the destroyer Decatur was rocketed from Portsmouth to put in to pursue the mysterious comer, and in another moment the Decatur, with the smoke belching from her four great stacks, was ploughing furiously through the heavy seas. The stranger turned and fled at full speed, and this fact led to the decision that she may have been one of the attacking fleet passing onward on scout duty. At a later hour the Decatur had made no report.

STIRRED UP OVER CORN.

Cereal Goes Up Nearly Five Cents a Bushel in Chicago.

Chicago, Aug. 22.—Board of trade grain markets were in a state of excitement during the day. The most sensational feature of the business was a rise of nearly 5 cents a bushel in the price of corn for next month's delivery. Wheat and oats were also sensationally higher.

A rise of 5 cents a bushel in corn may appear a trifling increase in its value to the householders who think of corn only in connection with table use; but when applied to outstanding contracts for delivery in September of, say, 50,000,000 bushels, a 5-cent rise in the price means a gain of \$2,500,000 in the aggregate to those who have it bought, and, of course, just that much loss to those who have sold it short.

The immediate cause of the advance was the scarcity of the commodity. There are more than 2,500,000,000 bushels of corn slowly ripening in the fields, but not enough coming in from the old deficient crop to supply the daily requirements of the country.

UNION PACIFIC STRIKE.

Rumors in Circulation That a Settlement Is in Sight.

Denver, Col., Aug. 22.—A special to the Republican from Cheyenne says:

It is reported here that the Union Pacific strike probably will be settled in a week or ten days; that a state official is in receipt of a letter from President Burt in which the official intimated that he would call for a conference with the strike leaders as soon as he could complete certain arrangements. No confirmation of the report can be obtained, nor can any state official be found who has received such a letter.

The strike leaders are positive, however, that some sort of a settlement of the controversy will be made in a few days.

PRESIDENT ASKED TO ATTEND.

Brotherhood of Locomotive Firemen Invite Him to the Convention.

Oyster Bay, N. Y., Aug. 22.—J. J. Hannahan, acting grand master, and F. W. Arnold, grand secretary and treasurer of the Brotherhood of Locomotive Firemen, presented to President Roosevelt a handsome engrossed invitation to attend the eighth biennial convention of the order at Chattanooga, Tenn., Sept. 8. The president indicated a desire to attend the convention if it were possible for him to do so. Senator Pritchard of North Carolina, who was at Sagamore Hill when the invitation was extended, asked the president to visit Asheville, N. C., if he made the trip to Chattanooga. The president promised to do so.

Parachute Failed to Open.

Danville, Ill., Aug. 22.—At the Homer fair 12,000 people saw the aeronaut, L. A. Sartell, of Fairwell, Mich., fall 1,200 feet. When he cut loose from his balloon his parachute failed to open. His feet were driven into the earth six inches and there was a compound fracture of both limbs. He may recover. Sartell's wife was killed two months ago by a fall from a balloon near Cairo, Ill., the parachute refusing to open.

IDAHO REPUBLICAN CONVENTION
MAKES SOME FIRM
DECLARATIONS.

GREAT AND GROWING EVIL

Platform Favors the Enactment of Laws to Regulate the Capitalization of Corporations Within Reasonable and Moderate Limits and Strongly Condemns Trusts—Convention Nominates a Complete State Ticket.

Boise, Ida., Aug. 22.—The Republican state convention nominated the following ticket:

Congressman, Burton L. French, Latah; supreme justice, J. F. Alleslie, Idaho; governor, John T. Morrison, Canyon; lieutenant governor, James M. Stevens, Bingham; secretary of state, William H. Gibson, Fremont; state auditor, Theodore Turner, Blinnock; state treasurer, H. N. Coffin, Ada; attorney general, John A. Bagley, Bear Lake; superintendent of public instruction, Miss May L. Scott, Bingham; inspector of mines, Robert Bell, Custer.

Though there had been a sharp contest over the principal places, all the nominations were made by acclamation.

The platform, after a feeling reference to the death of McKinley, says: "We believe that in President Roosevelt, out party has found a worthy leader whose fearlessness in the discharge of his duty, and whose devotion to the best interests of the whole country prove him to be a worthy successor of his lamented predecessor, and the Republican party of Idaho extends to President Roosevelt its hearty support."

The protective tariff is endorsed with the following supplementary declarations:

"That many of the industries of this country have outgrown their infancy and the American manufacturer has entered the market of the world and is successfully competing with the manufacturers of all other countries. We therefore

Favor a Revision of the Tariff without unreasonable delay which will place upon the free list every article and product controlled by any monopoly and such other articles and products as are beyond the need of protection."

On the trust question it says: "Resolved, That the formation of enormous over-capitalized corporations, commonly called trusts, for the purpose of concentrating all of the industries and products of the country in the hands of a few men, stifling competition and enabling them to dictate the wages of labor and the prices of commodities to both the producers and the consumer in the interest of their own aggrandizement, is a great and growing evil, the plain remedy for which should be laws regulating the capitalization of corporations within reasonable and moderate limits. We recognize the fact that under the Constitution of the United States as it now stands no adequate restrictions can be put upon the organization of such corporations; therefore, we favor such amendment to the Constitution as will enable congress to effectually regulate and suppress all trusts and injurious combinations of aggregated capital."

The platform favors the opening of lands in forest reservation in the state that are more valuable for agricultural than other purposes.

The Democratic legislature is condemned for its administration of the state land grants, for its legislative apportionment, for the veto of the best sugar bounty bill, for wasteful extravagance, etc.

The railway merger is opposed.

IOWA PROHIBITIONISTS.

State Convention at Waterloo Makes Nominations.

Waterloo, Ia., Aug. 22.—The Iowa state Prohibition convention placed the following ticket in the field:

Secretary of state, H. H. Howard, Marshalltown; auditor, John W. Leedy, Waverly; railroad commissioner, E. N. Albright, Des Moines; attorney general, J. B. Ferguson, Cedar county; judge supreme court, J. A. Harvey, Dallas county.

The platform opposes liquor traffic and license by government, declares for equal suffrage, urges the repeal of the Martin mult law and the submission of a prohibition amendment to vote of the people. It also favors the tariff revision and the election of senators by popular vote.

Meeting of American Opticians.

Boston, Aug. 22.—The convention of the American Opticians' association closed with the election of the following officers: H. E. Ellis, South Bend, Ind., president; F. L. Swart, Auburn, Frank Upham, St. Paul, and E. L. Jones, Saunders, Ky., vice presidents; C. A. Longstreet, Philadelphia, treasurer; William Sommers, Chicago, regent. Atlantic City was named as the place for the next convention.

New Jersey Man Dies in Ireland.

London, Aug. 22.—Thomas Nevins of East Orange, N. J., died at his residence, Mount Shannon, Castle Connell, County Limerick, Ireland, during the day. Mr. Nevins was a man of wealth and a large shareholder in many electric traction companies in the United States. He was also connected with railroad and gas enterprises in New Jersey.

At Milwaukee Next Year.

Asheville, N. C., Aug. 22.—The American Society of Florists, which has been in convention in this city since Tuesday, adjourned after selecting Milwaukee for next year's meeting.

DEAD NUMBER SIXTEEN.

The Wilmington Paper Mill Explosion Worse Than First Reported.

Wilmington, Del., Aug. 22.—Five bodies were found in the ruins of the Jessup & Moore Paper company's digesting room during the day and night, bringing the number of known dead up to sixteen. The bodies found were those of William Ruth, E. H. Mousley, Bernard Sweeney, William Scott and Joseph Henry. Joel Hutton, who was a fireman in the digesting room and was in the building when the explosion occurred, is the only employe now missing. The injured in the hospital will recover.

Carnegie Library for Dawson.

Dawson, Aug. 22.—Andrew Carnegie has made an offer of \$25,000 to Dawson to supply a free library for the city, provided that the local government pledge itself to a permanent maintenance, at the rate of \$2,500 a year.

DECLINES TO GO ON RECORD.

Transmississippi Commercial Congress Passes Over Trust Question.

St. Paul, Aug. 22.—Members of the Transmississippi congress declined to go on record officially as to the desirability of the trust as an institution.

But mention of the beef trust and its alleged blessings will have a place in the printed proceedings of the thirtieth annual session of the Transmississippi Commercial congress.

W. H. Eustis' efforts to have F. B. Thurber's paper on the cattle industry in America expunged from the records came to an abrupt end at the morning session, and now, instead of one brief utterance on the increased value of beefsteaks and the advantages it brings, a dozen statements stand out in bold relief on the records in its favor.

By resolution the Transmississippi convention delegates demand, indorse or recommend as follows:

Indorse the irrigation investigation now being made by the department of agriculture; urge creation of a bureau of agriculture; favor building of a dam at El Paso, Tex.; urge state and national legislation and aid for the creation and maintenance of small storage reservoirs; recommend creation of a federal department of mines and mining; ask congress to continue the geological survey; oppose the United States surrendering any territory to Great Britain; insist that government maintain its rights to all Alaskan territory secured through the purchase from Russia; urge a territorial government for Alaska; favor annual appropriation for operation and maintenance of dredges at harbors and waterways designated by congress; recommend deep waterway between Lake Michigan at Chicago and the Mississippi river at St. Louis; urge betterment of Mississippi river at Des Moines; recommends Hiral appropriation for the permanent im-

provement of the Mississippi river between the mouths of the Missouri and Ohio rivers; demand speedy completion of the improvement of the harbor at Galveston; indorse the improvement of Buffalo bayou from Houston, Tex., to deep water at Galveston; reaffirm belief in necessity for an American merchant marine; advise substantial federal appropriation for the extension of the good roads work; recommend co-operation by the states with the national government in fostering the good roads scheme; recommend that the contemplated Western naval training station be located at the Duluth-Superior harbor; demand reorganization of the consular service so that men will be selected for their ability rather than political pull; urge amendments to interstate commerce law so as to afford adequate protection to carrier and shipper alike; recommend the creation of a department of commerce and industries with a representative in the cabinet.

Two Men Killed by a Train.

Kansas, City, Aug. 22.—Rufus K. Cravens and O. P. Nolan, quarrymen, were struck by a westbound Rock Island passenger train west of here and killed. Both men were deaf.

VISITS WESTMINSTER ABBEY.

Shah of Persia Takes in the Historic Old Pile.

London, Aug. 22.—The Shah of Persia visited Westminster Abbey during the afternoon. At night, accompanied by Prince Arthur of Connaught, the Marquis of Lansdowne, secretary of state for foreign affairs, and Lady Lansdowne and others attended by his highness, the Atabek-Azam Grand Vizier, and a large suite and escorted by a detachment of the life guards, he was present at a gala performance at the hippodrome. The Shah everywhere received ovations and he greatly enjoyed the performance.

DECLINES TO GO ON RECORD.

Transmississippi Commercial Congress Passes Over Trust Question.

St. Paul, Aug. 22.—Members of the Transmississippi congress declined to go on record officially as to the desirability of the trust as an institution. But mention of the beef trust and its alleged blessings will have a place in the printed proceedings of the thirtieth annual session of the Transmississippi Commercial congress.

W. H. Eustis' efforts to have F. B. Thurber's paper on the cattle industry in America expunged from the records came to an abrupt end at the morning session, and now, instead of one brief utterance on the increased value of beefsteaks and the advantages it brings, a dozen statements stand out in bold relief on the records in its favor.

By resolution the Transmississippi convention delegates demand, endorse or recommend as follows:

Indorse the irrigation investigation now being made by the department of agriculture; urge creation of a bureau of agriculture; favor building of a dam at El Paso, Tex.; urge state and national legislation and aid for the creation and maintenance of small storage reservoirs; recommend creation of a federal department of mines and mining; ask congress to continue the geological survey; oppose the United States surrendering any territory to Great Britain; insist that government maintain its rights to all Alaskan territory secured through the purchase from Russia; urge a territorial government for Alaska; favor annual appropriation for operation and maintenance of dredges at harbors and waterways designated by congress; recommend deep waterway between Lake Michigan at Chicago and the Mississippi river at St. Louis; urge betterment of Mississippi river at Des Moines; recommends liberal appropriation for the permanent im-

provement of the Mississippi river between the mouths of the Missouri and Ohio rivers; demand speedy completion of the improvement of the harbor at Galveston; indorse the improvement of Buffalo bayou from Houston, Tex., to deep water at Galveston; reaffirm belief in necessity for an American merchant marine; advise substantial federal appropriation for the extension of the good roads work; recommend co-operation by the states with the national government in fostering the good roads scheme; recommend that the contemplated Western naval training station be located at the Duluth-Superior harbor; demand reorganization of the consular service so that men will be selected for their ability rather than political pull; urge amendments to interstate commerce law so as to afford adequate protection to carrier and shipper alike; recommend the creation of a department of commerce and industries with a representative in the cabinet.

THE PRESIDENT A CRACK SHOT

Defeats Boer Officer With a Revolver at Fifty Yards.

FIVE BULLETS IN THE SAME HOLE

Commandant Snyman Says He Does Not Believe There is a Man in All Africa That Can Shoot With the Chief Executive—With Rifles, Too, Visiting Boer Was Beaten.

President Roosevelt has beaten the Dutch. That is to say, he defeated a Boer officer at target practice the other morning, making a remarkable record with a .32 calibre revolver at fifty yards, says a dispatch from Oyster Bay, N. Y., to the New York Herald. He drove five bullets, one after the other, through the hole made by the first, in the center of the bullseye.

No such shooting has ever been done before around Oyster Bay, and Commandant W. D. Snyman, an officer on General De Wet's staff, declares he never saw such skill in South Africa. The match was between the president, his son Archie, Commandant Snyman, Joubert, son of former secretary of state of the Orange Free State, and Mr. Chanler. President Roosevelt recently received a new revolver as a gift from a friend in Germany and said he would like to try it.

Commandant Snyman, who is celebrated all through South Africa as a crack shot, proposed a match. The president was quite ready. So a new target with a three inch black bullseye was produced and set up in a field back of the president's house. Fifty yards were measured off, and the president took the first shot. The bullet struck the bullseye almost exactly in the center.

"Bully shot!" shouted Commandant Snyman. "But an accident, I do believe," he added jestingly to the president.

"Let me see if I can't give you another accident nearly as good," said the president, raising the pistol. Crack it went again, and when Commandant Snyman and the others saw that the second bullet had penetrated the hole made by the first one their faces became very stern. The president smiled. "Bully good gun!" he exclaimed and took aim for the third shot. That, too, followed the other two shots so accurately that only the one hole, a trifle enlarged and ragged, yet appeared in the bullseye. The men standing about him were surprised, but the president continued to talk about what a "bully good gun" it was and fired twice more. All five shots struck so nearly in the same hole that it looked as though but one bullet, a large and jagged one, had penetrated the bullseye. When the last of the five shots had been fired, the president handed the pistol to Commandant Snyman and said:

"Now, Snyman, you try it. There's a good string for you, but a Boer ought to beat it."

Hesitatingly the commandant took the pistol and, stretching himself on the grass, blazed away. He missed the bullseye by about half an inch.

"I'll make it the second time," he said and again fired. But again he missed the bullseye.

"That's enough," he said, getting up and handing the pistol back to the president. "I can shoot on the veldt, Mr. President, as well as any man in South Africa, but I don't believe there's a man in all Africa can shoot with you."

"It's a Boer's luck, the same old fate of defeat over again," said Mr. Reitz, putting his hand on Snyman's shoulder. The president smiled and, taking the commandant by the hand, shook it heartily and said:

"Well, commandant, you've been beaten by a Dutchman, and that isn't so bad."

All laughed at the president's ready joke.

This ended the pistol shooting, and then it was suggested that they have a match with rifles. Archie ran to the house for his father's Krag Jorgensen, and 100 yards were paced off from the target. With the rifle the president was given the first shot and made a bullseye. Then Commandant Snyman fired and made the first ring outside the bullseye. The second shot the president made a second bullseye, but not so good a shot as the first one. Ten shots by each were fired with the rifle, and out of the ten the president made seven bullseyes. None of the other contestants made a bullseye with either pistol or rifle. Commandant Snyman's score was next to the president's, but still far behind it.

Commandant Snyman has been a warm personal friend of President Roosevelt since he came to the United States more than a year ago. The commandant is now practically an exile from South Africa. He was formerly a member of congress in the Orange Free State and a wealthy farmer.

When the South African war broke out, he raised a regiment of Boers and on account of his daring and successful exploits was soon given an important place on De Wet's staff. He played a conspicuous and telling part in all the battles during the early part of the Boer war and finally became so great a terror to the British forces that a price of £500 was put on his head, and he was sent by the Boers to the United States. For more than a year he traveled through the United States lecturing on the South African situation. He is a typical Boer—tall, swarthy, athletic, with all the polish of an English gentleman. He is fond of outdoor life and still insists that he can defeat the president in shooting from horseback.

hbk. No doubt the president will give him the chance to win that triumph.

While the president did not show any feeling of exultation over his achievement and did not know whether or not he had broken a record, Archie felt very much chagrined because both his father and himself did not defeat the Boer soldier, but Archie's record was third.

Records with the pistol furnish no adequate comparison with the remarkable performance of President Roosevelt. Nowhere is it recorded that a marksman placed five consecutive bullets in the same hole within a bullseye. Difference in the caliber of weapons used also makes comparison impossible. Those records nearest the president's are as follows, five points for bullseyes:

Seventy-nine out of 85 points possible—Walter Winans, 20 and 50 yards, seven shots at each distance, American revolver and ammunition; caliber not given; at Runnymede, England, Sept. 22, 1896.

One hundred out of 100 points possible—C. H. Taylor, ten consecutive shots within a circle 3½ inches in diameter, 52½ yards; caliber of revolver not given; at Philadelphia, Nov. 8, 1898.

One hundred and twenty-five out of 125 points possible—C. S. Richmond, army revolver, .44 caliber; 25 shots at 50 yards; at Savannah, Ga., July 8, 1899.

Negro Assaults an Aged Woman.

Fort Scott, Kan., Aug. 22.—A young negro entered the home of William H. Taylor, a retired business man, and assaulted Mrs. Taylor, who is nearly sixty years old. Mrs. Taylor was alone when the negro entered the house and was unable to give the alarm until a half hour after the negro escaped. Poses were quickly organized and a search is being made in the country south of here.

Young Bride Takes Her Life.

Keokuk, Ia., Aug. 22.—Mrs. Edwin Zimmerman, a bride of seven months, committed suicide at Fort Madison by drinking a vial of carbolic acid after a quarrel with her husband over a trivial matter. Mrs. Zimmerman went into an adjoining room soon after and through an open door her sister saw her drain the bottle. She lived five hours after taking the drug.

NOT FEELING TOO GOOD.

Conference of Government Officials and Indians at Mille Lacs Not Progressing Satisfactorily.

The conference between the Ojibway Indians and government officials, looking to the removal of the Indians to White Earth reservation, is in progress.

The Indians began to assemble Tuesday to confer with Col. James McLaughlin, special inspector of the Indian department, and Maj. Simon T. Michelet, Indian agent at White Earth, relative to their prospective removal from that locality to White Earth.

The government representatives, two interpreters and other attaches left Brainerd by team and selected a desirable site there on the lake shore as the place for the council.

If the results of the meeting are satisfactory and the Indian wards of the government consent to their removal, the government officers will make an appraisal of the improvements made by those who will depart and such values will be paid in cash.

If the Indians consent, they will be allowed to take up their allotments on any other Chippewa reservation, probably that of White Earth.

Considerable opposition to the exodus has already developed among some of the tribes living farthest away from the lake, and the outcome of the meeting is at present uncertain.

All of the males of the tribe over 18 years of age, numbering about 200, are expected and most of them will probably be accompanied by other members of their families.

There will consequently within two or three days be an assembly there numbering 500 or 600 people.

There are a few representatives of the tribe on the ground from White Earth, some of whom have been residents of that reservation for two or three years.

They will probably produce a favorable impression and influence their former neighbors in accepting the government's proposition.

It is impossible to state at the present time how long the councils will last.

The temper of the Indians and their love for their homes will necessarily enter into the transaction.

A week will probably be consumed in the negotiations.

Out of the 200 males there are about twelve who are either chiefs or representative men, all of whom will have something to say in the council.

The settlers in the locality are strongly in favor of the removal of the Indians, arguing that so desirable a country should be peopled by actual settlers who will improve it.

The men standing about him were surprised, but the president continued to talk about what a "bully good gun" it was and fired twice more.

All five shots struck so nearly in the same hole that it looked as though but one bullet, a large and jagged one, had penetrated the bullseye. When the last of the five shots had been fired, the president handed the pistol to Commandant Snyman and said: "Now, Snyman, you try it. There's a good string for you, but a Boer ought to beat it."

Hesitatingly the commandant took the pistol and, stretching himself on the grass, blazed away. He missed the bullseye by about half an inch. "I'll make it the second time," he said and again fired. But again he missed the bullseye.

"That's enough," he said, getting up and handing the pistol back to the president. "I can shoot on the veldt, Mr. President, as well as any man in South Africa, but I don't believe there's a man in all Africa can shoot with you."

"It's a Boer's luck, the same old fate of defeat over again," said Mr. Reitz, putting his hand on Snyman's shoulder. The president smiled and, taking the commandant by the hand, shook it heartily and said:

"Well, commandant, you've been beaten by a Dutchman, and that isn't so bad."

All laughed at the president's ready joke.

This ended the pistol shooting, and then it was suggested that they have a match with rifles. Archie ran to the house for his father's Krag-Jorgensen, and 100 yards were paced off from the target. With the rifle the president was given the first shot and made a bullseye. Then Commandant Snyman fired and made the first ring outside the bullseye. The second shot the president made a second bullseye, but not so good a shot as the first one. Ten shots by each were fired with the rifle, and out of the ten the president made seven bullseyes. None of the other contestants made a bullseye with either pistol or rifle. Commandant Snyman's score was next to the president's, but still far behind it.

Commandant Snyman has been a warm personal friend of President Roosevelt since he came to the United States more than a year ago. The commandant is now practically an exile from South Africa. He was formerly a member of congress in the Orange Free State and a wealthy farmer.

When the South African war broke out, he raised a regiment of Boers and on account of his daring and successful exploits was soon given an important place on De Wet's staff. He played a conspicuous and telling part in all the battles during the early part of the Boer war and finally became so great a terror to the British forces that a price of £500 was put on his head, and he was sent by the Boers to the United States. For more than a year he traveled through the United States lecturing on the South African situation. He is a typical Boer—tall, swarthy, athletic, with all the polish of an English gentleman. He is fond of outdoor life and still insists that he can defeat the president in shooting from horse-

back. No doubt the president will give him the chance to win that triumph.

While the president did not show any feeling of exultation over his achievement and did not know whether or not he had broken a record, Archie felt very much chagrined because both his father and himself did not defeat the Boer soldier, but Archie's record was third.

Records with the pistol furnish no adequate comparison with the remarkable performance of President Roosevelt. Nowhere is it recorded that a marksman placed five consecutive bullets in the same hole within a bullseye. Difference in the caliber of weapons used also makes comparison impossible. Those records nearest the president's are as follows, five points for bullseyes:

Seventy-nine out of 85 points possible—Walter Winans, 20 and 50 yards, seven shots at each distance, American revolver and ammunition; caliber not given; at Runnymede, England, Sept. 22, 1896.

One hundred out of 100 points possible—C. H. Taylor, ten consecutive shots within a circle 3 1/4 inches in diameter, 52 1/2 yards; caliber of revolver not given; at Philadelphia, Nov. 8, 1898.

One hundred and twenty-five out of 125 points possible—C. S. Richmond, army revolver, .44 caliber; 25 shots at 50 yards; at Savannah, Ga., July 8, 1899.

Negro Assaults an Aged Woman.

Fort Scott, Kan., Aug. 22.—A young negro entered the home of William H. Taylor, a retired business man, and assaulted Mrs. Taylor, who is nearly sixty years old. Mrs. Taylor was alone when the negro entered the house and was unable to give the alarm until a half hour after the negro escaped. Poses were quickly organized and a search is being made in the country south of here.

Young Bride Takes Her Life.

Keokuk, Ia., Aug. 22.—Mrs. Edwin Zimmerman, a bride of seven months, committed suicide at Fort Madison by drinking a vial of carbolic acid after a quarrel with her husband over a trivial matter. Mrs. Zimmerman went into an adjoining room soon after and through an open door her sister saw her drain the bottle. She lived five hours after taking the drug.

NOT FEELING TOO GOOD.

Conference of Government Officials and Indians at Mille Lacs Not Progressing Satisfactorily.

The conference between the Ojibway Indians and government officials, looking to the removal of the Indians to White Earth reservation, is in progress.

The Indians began to assemble Tuesday to confer with Col. James McLaughlin, special inspector of the Indian department, and Maj. Simon T. Michelet, Indian agent at White Earth, relative to their prospective removal from that locality to White Earth.

The government representatives, two interpreters and other attaches left Brainerd by team and selected a desirable site there on the lake shore as the place for the council.

If the results of the meeting are satisfactory and the Indian wards of the government consent to their removal, the government officers will make an appraisal of the improvements made by those who will depart and such values will be paid in cash.

If the Indians consent, they will be allowed to take up their allotments on any other Chippewa reservation, probably that of White Earth.

Considerable opposition to the exodus has already developed among some of the tribes living farthest away from the lake, and the outcome of the meeting is at present uncertain.

All of the males of the tribe over 18 years of age, numbering about 200, are expected and most of them will probably be accompanied by other members of their families.

There will consequently within two or three days be an assembly there numbering 500 or 600 people.

There are a few representatives of the tribe on the ground from White Earth, some of whom have been residents of that reservation for two or three years.

They will probably produce a favorable impression and influence their former neighbors in accepting the government's proposition.

It is impossible to state at the present time how long the councils will last.

The temper of the Indians and their love for their homes will necessarily enter into the transaction.

A week will probably be consumed in the negotiations.

Out of the 200 males there are about twelve who are either chiefs or representative men, all of whom will have something to say in the council.

The settlers in the locality are strongly in favor of the removal of the Indians, arguing that so desirable a country should be peopled by actual settlers who will improve it.

R. M. DELAMBERT
DIES SUDDENLY
At His Home in St. Paul this Morning Surrounded by the Members of His Family.
WAS WELL KNOWN IN BRAINERD
Was at One Time Division Store-keeper in this City. Leaving Ten Years Ago.

R. M. DeLambert, general storekeeper of the entire Northern Pacific system, died this morning at 3 o'clock at his home in St. Paul, and the news of the death struck Brainerd like a thunderbolt. Mr. DeLambert had been a resident of this city for about ten years before he was promoted, and filled the position of division storekeeper, the position now held by Mr. Parks. The physicians give the cause of his death as acute indigestion caused from over work and over worry.
The daughters of the deceased were in the city about a week ago visiting with Mr. and Mrs. Chas. Metcalf. They received a telephone message that their father was sick and they left for home. He was taken sick while at his desk, but on Monday again he went to work and a letter was received in this city from Miss Lambert in which she stated that her father was improving. The news that came over the phone this morning, however, to Mr. and Mrs. Metcalf was a great shock. They left for St. Paul on the noon train accompanied by Miss Irene Lowey.
Mr. DeLambert was an exemplary man. He was way up in Masonry and all Masons will remember him in this city as one of the early members of the order. He was a Christian man and one of the happiest family circles in existence was broken by his untimely death.
Mr. DeLambert was division storekeeper until he was appointed general storekeeper of the Northern Pacific system. He was always known to be a hard worker, in fact he was overly zealous for his own good.

He leaves a wife and five children, three girls and two boys, to mourn the loss. Hundreds of Brainerd friends extend sympathy in the sad hour of affliction.

ELKS BIG DAY TOMORROW.
Big Delegation Expected up From St. Cloud to Assist in the Anniversary Celebration.

Tomorrow is the anniversary of the organization of Brainerd Lodge, B. P. O. E., and the day will be a gala one for all Brainerd Elks. It is thought that there will be a very large attendance from St. Cloud as the Elks team of that city will play a game of base ball with the Elks team of this city.
All members of the local lodge are requested to meet at the Elks hall at 2:30 o'clock. Here they will meet the members of the two teams and will march with them to the Athletic Park, where the game will be called at 3:30 o'clock. The band will head the procession and there will doubtless be a big turnout.
In the evening there will be a social session in the hall and a rattling good time is anticipated.
The following will be the lineup of the local team: Englebrechtsen, c; Watkins, p; Howe, 1b; Nolan 2b; Lynch, ss; Murphy, 3b; Hagberg, lf; Parker, cf; Weisenberger, rf.

WILL ENLARGE PARK.
A. A. White will Move the East Fence of Athletic Park Back Seventy Feet or More.
Teams are hauling dirt on the east side of the Brainerd Athletic Park. This is being done preparatory to widening the park from fifty to seventy feet. It is understood that it is A. A. White's intention to make the park one of the best in the northwest.

ST. CLOUDITES
WERE SHUT OUT
Chesty Bunch From St. Cloud Let Down Without a Run and Only One Hit.
DR. WATKINS IN GREAT FORM.
He Strikes out Thirteen of Them in Seven Innings and Makes Them Look Silly.

Brainerd 1; St. Cloud 0.
St. Cloud's base ball team, which is all swelled up over itself, was given a bitter pill to swallow last night at Athletic Park, in the shape of a shut out at the hands of the strong Brainerd aggregation. It went awfully hard with them and last night Capt. Tucker was all done up, for he takes the credit of being the whole bunch in the team. Dr. Watkins was the individual who dealt up to the ball tossers from the Granite City great chunks of deceptive "corkscrews", and to see the old timers like Diggins, Tucker, Lynch, Ball and Kilroy walk up and fan the air time after time, was better than a circus. The doctor was in great form and he had St. Cloud at his mercy from the start. They got but one hit off him during the entire game, and Sullivan in left field would have got that had the fence been wider. It just dropped over the fence that was all. The beauty about the whole thing was the fact that Ball, the colored pitcher, was in the box for St. Cloud. He was in good form also but was found for five singles. The only score in the game was brought in by Nehr, who has been doing phenomenal hitting since he came to Brainerd. It was in the fifth inning that the only score was made during the game. Sullivan up singled and stole second and third. Nehr up put a single over the third baseman's head that was pretty as could be and Sullivan made home. Brainerd made five hits off Ball. Watkins struck out thirteen men while Ball found but six of the boys suckers enough to bite.
But seven innings were played in the game. Chase was the first man up for St. Cloud and he struck out, and Liggins who followed met the same fate, Lynch was passed to first but there was not much danger of there being anything done for Dr. Watkins showed up in great style, and Tucker with great guffaw mumbled something about putting it over the fence but he swung on it like a lobster and struck out, retiring the side. Bothne up for Brainerd singled, but Sullivan went out from Ball to Diggins; Nehr went out from Hoover to Diggins, and Bemis flied out to Chase.
In the second, St. Cloud lasted quick again, the first three up going out. Ball flied out to Pierce, Kilroy went out from Boyle to Williams, and Hoover struck out. Flynn up up for Brainerd in this inning singled, but Pierce went out from Chase to Diggins, and Watkins and P. Boyle struck out.
The third was just about as short. Both Scott and Dominick struck out and Chase flied out to Bemis. It looked as though Brainerd might score in the third but they did not. Williams flied out to Tucker, but Bothne after a struggle drew first on balls. Sullivan struck out and Nehr flied out to Ball, retiring the side.
Three St. Cloud men struck out in one, two three, order in the fourth inning, Diggins, Lynch and Tucker; and Brainerd failed to score in this also. In the fifth, Ball up for St. Cloud struck out, Kilroy went out from Watkins to Williams, and Hoover was thrown out from Bothne to Williams. Here is where Brainerd scored; and that too after two men were out. Williams up flied out to Chase, and Bothne flied out to Tucker; Sullivan singled and got to third and Nehr's single brought him home. Bemis struck out retiring the side. There was nothing more doing during the rest of the game. Just to show how strong Brainerd was in all but two innings, but three men got up to bat and in the other four only four went to bat for St. Cloud.

MUSIC AND DRAMA.
"McCarthy's Mishaps" TONIGHT.
Lovers of fine music and genteel comedy will enjoy "McCarthy's Mishaps" at the Brainerd opera house tonight. The company comes highly recommended and is artistic in every sense. The play is high class and refined, and the specialties first class in every respect. Patrons of the Brainerd opera house may expect a rare treat in music and comedy.
The following is what the Milwaukee News has to say regarding this performance, especially Marguerite Ferguson.
"Marguerite Ferguson was one of the performers who received as much attention as anyone on the program. She is called an acrobatic dancer and her act justified the title. Such a bundle of nerves and muscles in one small body is seldom seen. She is as lithe and quick as a cat, and some of the positions in which she managed to twist herself is wonderful."

Negro Much Surprised.
Speaking of the death of Brakeman Fred Stevens, the Bismarck Tribune adds:
Griffin, the negro who did the shooting, is confined in the jail here on a charge of assault with a deadly weapon. He is under \$10,000 bonds. The charge against him will be changed to murder.
It is probable that Stevens ante-mortem statement of the case was taken at Brainerd for use in the trial. There are not witnesses to the shooting, except the four men who were with Griffin at the time of the shooting. They were not held and have disappeared. So far as the actual shooting is concerned, that has been admitted by the defendant. If, however, he should not go on the stand at the trial, it is difficult to see how he could be identified by the state as the man who did the shooting.
The fatal outcome of the shooting will make three murder trials that are on the calendar for trial this fall in Burleigh county.
Griffin, the negro, was informed this afternoon that Stevens was dead. He was apparently much surprised by the information, and frightened as well. He has been a rather lively prisoner since his arrest until he learned the news of Stevens' death this afternoon, and since then he has been silent and apparently realizes the fearfully serious situation he is in.

A FITTING TRIBUTE.
A Citizen of Brainerd Pays a Well-earned Tribute.
The following public statement of a respected citizen adds one more emphatic endorsement to the scores that have appeared before.
Mr. W. S. Benjamin, practical band, gang or rotary flier, of 71 Third Ave., East Brainerd, says: "Doan's Kidney Pills did me so much good that I prevailed on many others to use them, and I know of many cases where benefit has resulted. I had more or less pain and the real secretions seemed to be acid in nature thereby causing me considerable distress. I got a supply of Doan's Kidney Pills from a drug store and can state that they had the effect of completely altering the condition of my kidneys referred to above. I shall certainly continue to advise others to use this remedy if annoyed any way from their kidneys."

"NORTH COAST LIMITED"
of the Northern Pacific which, in its two seasons of service has justly obtained the reputation of being the "Crack Train of the Northwest," was again placed in commission May 4, 1902.
This train replaced trains 11 and 12 and the twice-a-day through train services is maintained as heretofore.
The "Limited" runs between St. Paul and Portland, via Butte, Spokane, Seattle and Tacoma as in previous years, and is electric lighted, steam heated and vestibuled.
New, modernized Pullmans, the most advanced type of Tourist Sleeping Cars, new Northern Pacific Railway Dining Cars, the usual fine equipment of regular Day Coaches, etc., and crowning all, the superb Observation cars of the Northern Pacific Railway at the rear of these trains, all together form a train unexcelled anywhere. It is worth something to see the Northwest on a train like this. Passengers having paid for first-class Pullman berths have the privilege of the Observation car and its fine library and reading room Free, others holding first-class tickets pay a small fee for the privilege.
This train carries the east-bound Yellowstone Park travel and the Park Pullman during the Park season, May 30 to September 15th.

The near approach of the time when this year's splendid crops will begin to move suggests that it would be wise for intending shippers to investigate the standing of commission merchants with whom they are to form business relations. The states of North Dakota and Minnesota require commission merchants to give bonds to guarantee their good faith and the fair treatment of shippers, and among those who have complied with all of these requirements may be mentioned the firm name of Edwards, Wood & Co., of Minneapolis and Duluth. This is moreover given an enviable rating by the commercial agencies; has the best possible facilities for handling shipments, and by a long course of fair dealing and courteous treatment of its patrons has deserved the consideration of shippers.

MUSIC AND DRAMA.
"MC CARTHY'S MISHAPS" TONIGHT.
Lovers of fine music and genteel comedy will enjoy "McCarthy's Mishaps" at the Brainerd opera house tonight. The company comes highly recommended and is artistic in every sense. The play is high class and refined, and the specialties first class in every respect. Patrons of the Brainerd opera house may expect a rare treat in music and comedy.
The following is what the Milwaukee News has to say regarding this performance, especially Marguerite Ferguson.
"Marguerite Ferguson was one of the performers who received as much attention as anyone on the program. She is called an acrobatic dancer and her act justified the title. Such a bundle of nerves and muscles in one small body is seldom seen. She is as lithe and quick as a cat, and some of the positions in which she managed to twist herself is wonderful."

Negro Much Surprised.
Speaking of the death of Brakeman Fred Stevens, the Bismarck Tribune adds:
Griffin, the negro who did the shooting, is confined in the jail here on a charge of assault with a deadly weapon. He is under \$10,000 bonds. The charge against him will be changed to murder.
It is probable that Stevens' ante-mortem statement of the case was taken at Brainerd for use in the trial. There are not witnesses to the shooting, except the four men who were with Griffin at the time of the shooting. They were not held and have disappeared. So far as the actual shooting is concerned, that has been admitted by the defendant. If, however, he should not go on the stand at the trial, it is difficult to see how he could be identified by the state as the man who did the shooting.
The fatal outcome of the shooting will make three murder trials that are on the calendar for trial this fall in Burleigh county.
Griffin, the negro, was informed this afternoon that Stevens was dead. He was apparently much surprised by the information, and frightened as well. He has been a rather lively prisoner since his arrest until he learned the news of Stevens' death this afternoon, and since then he has been silent and apparently realizes the fearfully serious situation he is in.

A FITTING TRIBUTE.
A Citizen of Brainerd Pays a Well-earned Tribute.
The following public statement of a respected citizen adds one more emphatic endorsement to the scores that have appeared before.
Mr. W. S. Benjamin, practical band, gang or rotary flier, of 71 Third Ave., East Brainerd, says: "Doan's Kidney Pills did me so much good that I prevailed on many others to use them, and I know of many cases where benefit has resulted. I had more or less pain and the real secretions seemed to be acid in nature thereby causing me considerable distress. I got a supply of Doan's Kidney Pills from a drug store and can state that they had the effect of completely altering the condition of my kidneys referred to above. I shall certainly continue to advise others to use this remedy if annoyed any way from their kidneys."
Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co. and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

"NORTH COAST LIMITED"
of the Northern Pacific which, in its two seasons of service has justly obtained the reputation of being the "Crack Train of the Northwest," was again placed in commission May 4, 1902.
This train replaced trains 11 and 12 and the twice-a-day through train services is maintained as heretofore.
The "Limited" runs between St. Paul and Portland, via Butte, Spokane, Seattle and Tacoma as in previous years, and is electric lighted, steam heated and vestibuled.
New, modernized Pullmans, the most advanced type of Tourist Sleeping Cars, new Northern Pacific Railway Dining Cars, the usual fine equipment of regular Day Coaches, etc., and crowning all, the superb Observation cars of the Northern Pacific Railway at the rear of these trains, all together form a train unexcelled anywhere. It is worth something to see the Northwest on a train like this. Passengers having paid for first-class Pullman berths have the privilege of the Observation car and its fine library and reading room Free, others holding first-class tickets pay a small fee for the privilege.
This train carries the east-bound Yellowstone Park travel and the Park Pullman during the Park season, May 30 to September 15th.

The near approach of the time when this year's splendid crops will begin to move suggests that it would be wise for intending shippers to investigate the standing of commission merchants with whom they are to form business relations. The states of North Dakota and Minnesota require commission merchants to give bonds to guarantee their good faith and the fair treatment of shippers, and among those who have complied with all of these requirements may be mentioned the firm name of Edwards, Wood & Co., of Minneapolis and Duluth. This is moreover given an enviable rating by the commercial agencies; has the best possible facilities for handling shipments, and by a long course of fair dealing and courteous treatment of its patrons has deserved the consideration of shippers.

FRAUDULENT RECORDS

BOOKS IN COOK COUNTY (ILL.)
TREASURER'S OFFICE TAM-
PERED WITH.

NO ARRESTS MADE YET

Said That a Forged Receipt for \$26,770

Taxes Assessed Against the Masonic
Temple Had Been Issued and That
False Entries Had Been Made on
the Books Showing the Taxes to
Have Been Paid.

Chicago, Aug. 22.—Fraudulent records in the county treasurer's office involving large sums of money were brought to light here during the day, when it was announced that a forged receipt for \$26,770 taxes assessed against the Masonic Temple had been issued and that fraudulent entries had been made on the tax books, showing the taxes to have been paid. It is stated that similar frauds involving other large properties have been committed. No arrests have been made and the identity of the clerks in the treasurer's office who have tampered with the books is not known.

OFFICERS AND NEGROES FIGHT.

Three Colored Men Reported Killed and One Deputy Wounded.

Tupelo, Miss., Aug. 22.—A telegram was received here during the day by Sheriff Long from Deputy Sheriff Sam Young at Shannan asking that the sheriff come immediately to that place. A report was current here that three negroes had been killed and that James Randolph, one of the best known citizens of the county, who had assisted in the arrest of other negroes, had been shot. The difficulty grew out of the stealing of some corn out of the field of the Messrs. Eubanks, three miles west of Shannan, by a negro named Davenport, who was caught in the act and made to pour the corn out of his sack. The following night the Messrs. Eubanks went to the field to look out for thieves and on returning were fired on by a squad of about forty negroes, who were lined up alongside the road. None of the shots took effect. Messrs. Randolph, Rogers and Barnett were deputized to arrest those implicated in the shooting and followed three negroes into Chickasaw county. The negroes barricaded themselves in a barn, armed with shotguns. When they refused to open the door or come out the door was broken in and Randolph struck a match, when the negroes immediately opened fire on him, hitting him in the head and shoulder. The negroes ran out and one of them was struck by the shots fired at them in the darkness. It is reported by the parties who came here from the vicinity that three negroes have been killed. Deputies brought to jail eight negroes. Sheriff Long has returned from Shannan and reports everything quiet.

SUSPICION OF FOUL PLAY.

Robert Remington's Death at Newport Being Investigated.

Williamsport, Pa., Aug. 22.—It is reported from an authoritative source that Edward P. Remington is not satisfied that his brother Robert died by his own hand. When it became known that he was entertaining a suspicion of foul play, which originated before he left Newport with the body, an Associated Press representative called on Mr. Remington and requested a statement. He replied that he would neither deny or affirm anything relative to his brother's death except that the autopsy performed revealed that the bullet in the mouth caused death. When asked if the bullet found imbedded in the dead man's brain fitted the revolver found by his side, he declared that he had nothing further to say. Asked if developments in the case could be expected, he said time alone would tell.

Mr. Remington and his attorney, S. T. McCormick, as well as the physicians who performed the autopsy, were together in secret conference until late at night and their action is surrounded by much mystery. They positively refused to give out any further information.

BARTHOLOIN MURDER CASE.

Coroner's Jury Implicates Bartholin, Thompson and Counselman.

Chicago, Aug. 22.—The coroner's jury at the inquest over the body of Mrs. Anna Bartholin brought in a verdict recommending that her son, William Bartholin, be arrested and held as principal for her murder and that Oscar Thompson and Edward Counselman, who are under arrest accused in the complicity in the murder of Minnie Mitchell, be held to the grand jury as accessories to the murder. The jury found that Mrs. Bartholin came to her death on or about July 7. Death was due to strangulation.

Chopped His Wife's Head Off.

Muskogee, I. T., Aug. 22.—James Hope, a Creek freedom farmer, was lodged in jail here, having confessed to the murder of his wife. Hope, according to his own story, had forbidden his wife to join a secret society, but she ignored his command and became a member. When she returned from the lodge meeting Hope met her at the door of their home, attacked her with an axe and chopped her head off.

Young Woman Takes Her Life.

Chicago, Aug. 22.—The body of a young woman found on the shore of Lake Michigan off the village of Rogers Park, has been identified as that of Nellie Hughes of Chicago. It is supposed that she left a passenger boat at Waukegan, as that is where she was last seen by any of her friends, and committed suicide. She had been despondent for some time.

WHEAT SHORTAGE SERIOUS.

Number of Minneapolis Mills Forced to Shut Down.

Minneapolis, Aug. 22.—The continued light movement of wheat to Minneapolis, coupled with the small stocks in store here, is the source of much concern to local flour manufacturers, at least to a number who are unfortunate enough to be without terminal stocks to draw on—and these are said to include all of the large mills, except the Pillsbury-Washburn company, which owns practically all of the good milling wheat in store here.

The shortage of milling wheat became so serious last week that several mills were forced to suspend operations.

It was expected the movement of new wheat to the local market this week would be sufficiently large to materially relieve the situation, but rains have interfered with threshing and receipts have shown little, if any, increase over last week.

MESSENGERS GO OUT.

Chicago Boys Again Tie Up Telegraph Companies.

Chicago, Aug. 22.—Merchants and brokers are forced to do the work of messenger boys and all business depending upon telegraph service is seriously obstructed as the result of the second strike of the messenger boys.

The Western Union tried to employ boys to take the places of the strikers but were unable to do so.

Mitchell Has No Information.

Chicago, Aug. 22.—President John Mitchell of the United Mine Workers of America, who came to Chicago Tuesday night to meet the officials of the Illinois Mine Workers' union, has returned to Wilkesbarre, Pa. Before leaving for the East Mr. Mitchell declared that he knew nothing of any steps to bring the strike in the anthracite fields to an end.

Minneapolis Man Falls From a Train.

Montreal, Aug. 22.—George Allan, seventy-five years old, of Minneapolis, met his death near Farnham, East Township. Mr. Allan was returning from the Maine coast with his wife on the Grand Trunk railroad Portland train, and in attempting to pass from a day coach to the Pullman, fell from the train and was fatally injured.

Incendiaries at Jeffers, Minn.

Jeffers, Minn., Aug. 22.—Fire started in the Central hotel, causing a loss of \$20,000 and burning A. A. Faust's general merchandise store, containing the postoffice, and implement house and building used for restaurant purposes, belonging to Nels Anderson. Insurance, \$7,600. The fire was no doubt the work of an incendiary.

General Franz Sigel Dead.

New York, Aug. 22.—General Franz Sigel died at his home in this city during the day of old age. He was in his seventy-eighth year.

TELEGRAPHIC BREVITIES.

Beneficial rains have fallen over the greater part of New South Wales and there have been light rains in portions of Queensland.

The last horse car has disappeared from Berlin's streets owing to the abolition of that means of transportation in favor of more modern conveyances.

Johanna Jakobson, thirty years old, who registered with her husband, reputed to be a merchant of New York, committed suicide by taking poison at a Berlin hotel.
